## Summary

- Football Data Engineering with San Jose Earthquakes, Oakland Roots, USL, Santa Clara University Men's and Women's Soccer, and xVal. Using Hudl Wyscout, Catapult, VALD, and other sporting softwares. Built [matchdays.app](#) and [usl2w.com](http://usl2w.com). Regularly collaborating with MLS/USL/EFL/NCAA D1 staff. [Twitter \(X\)](#) Wolves FC data, 500k+ impressions. Research Assistant. Computer Science & Engineering student at Santa Clara University.

## Experience

### Performance Researcher

Mar 2026 - Present

[San Jose Earthquakes](#)

Apprenticeship | Hybrid

- GPS and VALD data to identify load strength relationships across positional groups for **MLS** performance staff.

### Undergraduate Analyst

Feb 2026 - Present

[Oakland Roots](#)

Apprenticeship | Hybrid

- Data workflows & KPI analysis to support both coaching staff & athletic performance in the **USL Championship**.

### Sporting Intern

May 2026 - Present

[United Soccer League \(USL\)](#)

Internship | Remote

- Player analysis, talent ID, scouting research, and player development across **USL League Two** & Men's Pathway.

### Data Engineer

Sep 2025 - Present

Santa Clara University [Men's](#) and [Women's](#) Soccer

Seasonal | Hybrid

- Streamlined tools like Hudl Wyscout and Catapult for dynamic **NCAA D1** player reports and team dashboards.

### Contributor

Feb 2026 - Present

[xVal](#)

Part-Time | Remote

- Helping recruitment identify undervalued players by linking on-pitch impact to market value across 350+ leagues.

### Research Assistant

Apr 2025 - Present

[Wireless Intelligent Networks \(WIN\) Lab](#)

Part-Time | Hybrid

- Real time sporting intelligence with next generation 6G networking systems for efficient data analysis pipelines.

### Teaching Assistant

Sep 2025 - Dec 2025

Santa Clara University School of Engineering

Part-Time | Hybrid

- Facilitated lectures, developed assignments, led practicums, and office hours in CSEN 171 programming paradigms.

## Projects

### [usl2w.com](#)

May 2026

- Analytics platform for USL League Two Western Conference built on Spiideo data for USL scouting workflows.

### [matchdays.app](#)

Dec 2025

- Platform to integrate Hudl Wyscout, Catapult, VALD & other sporting tools, regularly used by NCAA & USL Staff.

### [Football Analytics](#)

Jul 2025

- Player scouting, match analysis, squad planning, and performance monitoring to turn data into practical insights.

## Education

### Santa Clara University

Sep 2023 - Jun 2027

- Bachelor of Science in Computer Science and Engineering

## Skills

**Sporting:** Hudl Wyscout, Python (Data Engineering, Analysis, Visualization), Excel, Catapult, VALD, Spiideo

**Technical:** C, C++, Java, HTML/CSS/JavaScript, MATLAB, Git/GitHub

**Miscellaneous:** Final Cut Pro, Microsoft Visual Studio Code, Jupyter Notebooks, LaTeX
